

M.C.E SOCIETY'S

M.A.RANGOONWALA COLLEGE OF DENTAL SCIENCES AND RESEARCH CENTRE, PUNE-01.

On the 3rd of March 2022, M.A.Rangoonwala college of dental sciences and research Centre, Pune along with the fire department, Pune Municipal Corporation conducted a fire drill.

The time taken for a fire to start and spread is extremely short and thus we must be equipped as well as have the knowledge of how to use the equipment. This was the main goal of the drill. We began our day by felicitating our principal Dr.Ramandeep Dugal ma'am, followed by our Registrar Mr R.A Shaikh and Station Officer Mr. Gore from the Fire Department, Pune Municipal Corporation. The demo took place at the entrance of our college where we were explained about the different extinguishers and their function. We were taught about how to keep the direction of wind in mind while putting out a fire. Our staff Dr. Sangeeta Muglikar and Dr. Yusuf Choonawala took an initiative to put out a small fire under the guidance of the fire department. The interns and non teaching staff were also allowed to practice the same.

Following the demonstration we were shown the functioning of the fire truck and how the water is supplied in various forms to put out fire. For example a water curtain that curtails the spread of fire.

We concluded the event with an interactive session with Mr. Gore in our Oral pathology Lecture room. We had a lot of learning to take back with us along with some fun-filled pictures.
