

Tobacco Cessation Cell  
Incharge- Dr Rashmi Sapkal

The cell operates on a daily basis with a monthly schedule of posting of staff along with interns. First chain of referral to our centre is from OPD of the college and satellite Centres of college, faculty and posted interns. Oral Medicine and Radiology take detailed tobacco products case history using predesigned DCI prescribed tobacco proforma and screened. Those reported to OPD with tobacco related oro-mucosal lesions (precancerous lesion) will undergo thorough clinical examination followed by incisional/excisional biopsy if required. Patients having habit of Tobacco usage are counselled with regular Follow up visits.
