## Report on the World Oral Health Day celebration

Date: April 8, 2025

World Health Day is observed annually on 7<sup>th</sup> of April to raise awareness towards critical health issues and motivate action for a concerted effort to address them. It also emphasizes the importance of working internationally to address health challenges. WHO and Indian Ministry of Health and Social Welfare have chosen the theme 'Healthy Beginnings, Hopeful Futures' for the year 2025 to emphasize the importance of maternal and neonatal health.

Obesity is a persistent issue among the youth today, which is a big challenge to handle. To enhance our information and know about the various avenues to handle obesity, the college had organized a guest lecture by Dr Geeta Dharmatti. She is a Director of Geeta NutriHeal and is a highly accomplished clinical nutritionist with over 18 years of experience. She delivered an enlightening lecture on "Decoding Myths around Obesity Management." Her session addressed prevalent misconceptions about obesity and provided practical insights into sustainable health practices. The lecture was attended by many students from the dental college and the staff and students from various institutes from Azam campus and was highly appreciated. It was a meaningful observance that successfully met its objectives and left participants more informed and inspired toward better health practices.

Our Principal, Dr Ramandeep Dugal and Vice Principal Dr Salika Sheikh welcomed the speaker. Dr Nikhil Diwan, NSS Program Officer and Dr Neetu Kadu, Head of the Public Health Department, felicitated the guest speaker. Zohaib form III BDS welcomed the delegates and the dignitaries. Fabha from III BDS presented the vote of thanks.
